

Treasuring your freedom

The world's favourite lock

The New Yale Safe Collection

Peace of mind in a box

The New Yale Safe Collection is designed to be even stronger, more reliable, easier-to-use and harder-to-crack. It's also designed to be good-looking; just because you've put your safe in the wardrobe doesn't mean you want to be sighing every time you open the door!

Keeping passports, birth certificates, deeds, cards, cash and keys in a safe makes them easier for you to find, but not for thieves. For those concerned about identity-theft, it's good to know a safe can play a positive part in keeping your life your own, while leaving you worry-free enough to enjoy it.

Finally, a safe makes the ideal place for the irreplaceable (those diaries, old letters, or grandmother's earrings) – and a perfect hideyhole for items whose value is currently inexpressible (such as the last few month's work on your laptop).

Our Yale Safes and Yale Certified Safes provide a range of security and size options to suit different needs.

Yale Certified Safes

Locking Mechanism	22mm motorised locking bolts, 6 lever double-bitted mechanical override lock
Mounting solution	Pre-drilled holes with fixing bolts or protective floor pads
Interior finish	Full felt lining
Light source	LED lights
Armour plating	Key areas reinforced
External accreditations / standards	Sold Secure Silver Secure by Design £ 2000 Cash rating
Steel thickness	3mm wall 8mm door

The crime scene: tested to destruction.

To really understand how safes are broken into in the 21st century, and where in your home they have to withstand attack, we set up a few crime scenes of our own. Extensive and exhausting tests proved that we needed to incorporate several improved key features:

- extra thick body and door, reinforced with armour plated steel
- laser cut door, for minimal gap
- locks with heavy-duty solid steel bolts in the door
- reinforced door hinge

As a result the new Yale certified safes were awarded a Silver in the 'Sold Secure Accreditation' (Sold Secure, UK, 2007).

YALE CERTIFIED SAFE HOME

Exterior dimensions:
250 x 350 x 300
Interior dimensions:
240 x 337 x 230
YSM/250/EG1

YALE CERTIFIED SAFE LAPTOP

Exterior dimensions:

Yale Safes

Locking mechanism

Mounting solution

Interior finish

External steel thickness

**22mm motorised locking bolts,
6 lever double-bitted mechanical
override lock**

**Pre-drilled holes with fixing bolts or protective
floor pads**

Powder coated interior

**2mm wall
4mm door**

The home scene: user friendly, user faithful.

You open your safe using a code you choose yourself, so it's easier to remember and it's just as easy to re-set. When you enter your secret user code, the motorised bolts withdraw and the door opens automatically.

To override the electronic lock, the safe can always be opened through the high-security six lever lock with a double-bitted high security Yale key. The key hole is concealed behind the Yale logo badge.

YALE SAFE COMPACT

Exterior dimensions:
200 x 350 x 200 mm
Interior dimensions:
192 x 345 x 145 mm
